- 1 Certain Windows Vista product features require advanced or additional hardware. See <http://www.microsoft.com/windowsvista/getready/hardwarereqs.aspx> and <http://www.microsoft.com/windowsvista/getready/capable.aspx> for details. Windows Vista Upgrade Advisor can help you determine which features of Windows Vista will run on your computer. To download the tool, visit www.windowsvista.com/upgradeadvisor.
- 2 Intel's numbering is not a measurement of higher performance.
- 3 Dual Core is a new technology designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology and 64-bit computing on Intel architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers, and applications enabled for Intel® 64 architecture-enabled BIOS. Processors will not operate (including 32-bit operation) without an Intel 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. See www.intel.com/info/em64t for more information.
- 4 1 GB = 1 billion bytes; actual formatted capacity is less. Up to 8 GB of hard drive (for XP and XP Pro on consumer and commercial notebooks) is reserved for system recovery software. Up to 9 GB of hard drive (for Vista on consumer notebooks) is reserved for system recovery software. Up to 10 GB (for Vista on commercial notebooks) is reserved for system recovery software. Up to 12 GB (for MCE on consumer and commercial notebooks) is reserved for system recovery software.
- 5 LightScribe creates a grayscale image similar to a black-and-white photograph. LightScribe media required and sold separately. Does not permit copying of commercially available DVD movies or other copyright-protected materials. Intended for your original content and other lawful uses.
- 6 AMD's model numbering is not a measurement of clock speed.
- 7 This system requires a separately purchased 64-bit operating system and 64-bit software products to take advantage of the 64-bit processing capabilities of the AMD Athlon 64 X2 technology. Dual core processing available with AMD Athlon X2 technology is a recent technology innovation designed to improve performance of the system. Given the wide range of software applications available, performance of a system including a 64-bit operating system and a dual core processor will vary.
- 8 Double-layer discs can store more data than single-layer discs. However, double-layer discs burned with this drive may not be compatible with many existing single-layer DVD drives and players.
- 9 DVD-RAM cannot read or write to 2.6 GB single-sided or 5.2 GB double-sided version 1.0 media. Does not permit copying of commercially available DVD movies or other copyright-protected materials. Intended only for creation and storage of original material and other lawful uses.
- 10 Wireless access point and Internet service required and sold separately. Availability of public wireless access points is limited.
- 11 The specifications for the 802.11n WLAN are draft specifications and are not final. If the final specifications differ from the draft specifications, it may affect the ability of the notebook to communicate with other 802.11n WLAN devices.
- 12 This system requires a separately purchased 64-bit operating system and 64-bit software products to take advantage of the 64-bit processing capabilities of the AMD Turion 64 processor. Given the wide range of software applications available, performance of a system including a 64-bit operating system will vary.
- 13 Windows Vista Business disk is also included for future upgrade, if desired. To qualify for this downgrade an end user must be a business (including governmental or educational institutions) and is expected to order at least 25 customer systems with the same custom image.
- 14 Service levels and response times for HP Care Packs may vary depending on your geographic location. Restrictions and limitations apply. Service starts at date of hardware purchase. For details, visit www.hp.com/go/carepack.
- 15 The Computrace agent is shipped turned off, and must be activated by customers when they purchase a subscription. Subscriptions can be purchased for terms ranging from one to four years. Service is limited, check with Absolute for availability outside the U.S.

Offers are valid only until October 31, 2009. Pricing may not be combined with any other offer, promotion, or discount. Prices subject to change without notice.
