

California Articulation Number (CAN) System

NOTE: The California State University system will continue to honor the following SCC CAN courses until the “expiration date” listed. For courses marked with “TBD (to be determined), an expiration date has not been determined. Eventually, the CAN system will be terminated. A new numbering system has been developed called “TCSU” and the course approval process is underway. Coming soon, the new Lower Division Transfer Pattern (LDTP) using TCSU numbers will be available as another pathway for students to transfer to CSU campuses.

CAN numbers are used to identify commonly taught courses at CSU campuses and community colleges throughout the state. This system assures students that CAN courses at one participating campus will be accepted at another participating campus. For example: CAN ECON 2, Macroeconomics at one campus will be accepted as a comparable course at every other participating CAN campus (a CSU campus and/or community college).
