

**STRONG WORKFORCE PROGRAM (SWP)  
REQUEST FOR LABOR MARKET INFORMATION (LMI) FORM**

Strong Workforce Investments must lead to successful workforce outcomes. To ensure that the investment ties to the regional economy, the State Chancellor’s Office requires proof of labor market demand or living wage attainment data to justify the investment.

In the online system for submitting SWP project plans (NOVA), there is a section labeled ‘LMI’ that requires submission of supporting evidence. To assess if your proposal meets the minimum criteria, please complete the following request for LMI and submit to your Dean and campus contact overseeing the Strong Workforce Program (listed below). The Los Rios District Office will compile the LMI data and return within one week of receiving the request.

What is the title of the program?

What is the TOP code at the six digit level?

Is this an existing program or new program?

- Existing Program
- New Program
